QUARTERLY REPORT

25X1

PAR 213

26 Feb 65

SUBJECT: Color Reproduction Systems Review

TASK/PROBLEM

1. In view of the recent importance attached to color photography by the intelligence community, investigate and determine the most suitable means to reproduce and utilize multiple copies of color materials. Determine the most suitable reproduction system and types of equipment to be used in all phases of the reproduction cycle. Also, attempt to define how color photography can best be utilized by the photo interpreter.

DISCUSSION

2. Work on this project has been completed for major reproduction evaluations with available acquisition originals. Briefing aids have been designed and work begun to prepare a final report. Further significant progress on any new project of this type will require more extensive acquisition at all altitudes of interest.

3. Assembly and organizations of information for the final report is now complete and a first draft has been prepared. Editing of this draft for publication has been accomplished to the point where work on illustrations and a final drafting of the text are in sight.

PLANNED ACTIVITIES

4. Complete and issue the final report in the next few weeks.
